

Refine | REFINISHING TREATMENT

PM

pH 4.86 (+/-0.5)

DESCRIPTION

Oily skin will love this lightweight retinol treatment, as it is quickly absorbed into the skin. AGP Complex is at the heart of this formulation, while L-Proline helps remodel the skin. Powerful results delivered without dehydrating the skin

BENEFITS:

- Increases cellular turnover
- Less irritation/redness than with other retinoids
- Reduces look of fine lines/signs of aging
- Improves skin texture and color
- Helps problem skin
- Detoxifying
- Mattifying
- Discourages melanocyte grouping

CONDITIONS:

- Problem Skin
- Hyperpigmentation
- Photoaged Skin

**KEY INGREDIENTS:**

- **4% AGP Complex:** Encourages skin renewal to reduce the appearance of wrinkles and imperfections
- **Sodium Hyaluronate and Sodium PCA:** Help moisturize dry skin

HOME CARE:

Apply 1 pump to clean dry skin. Avoid eye area. Do not remove. Begin use on alternative nights building up to nightly application once tolerated.
